Agriculture & Forests Department,
Government of Mysore, Bangalore.

No.S 105/V/446 Karwar, 19-11-1956.

Subject: Disforestment of an area of one acre out of F.S.No.108 of Shedgeri, taluka Ankola.

The applicant Sayad Usman Sayad Ahamad, President, Tanzeem Committee, Ankola, has applied for an area of one acre out of F.S.No.108 of Shedgeri in Ankola taluka for the purpose of Idgah. At present, an area of 4 gunthas comprising of S.No.56A/7 of Shedgeri is being used for the purpose by the Muslims of Ankola. They are willing to surrender this plot in favour of Government, as it is too small for the purpose, if the area now applied for by them is made available to them.

The Mamlatdar of Ankola reports that a school building under National Extension Service Scheme is being constructed in the area adjoining S.No. 56A/7 and if this land is surrendered by the Tanzeem Committee, it could be utilized for a play ground or for extension of the school building in future. He has recommended the request of the applicant as the area applied for falls within the area notified by the Forest Department as available for fruit cultivation. The grazing area is 383 acres as against the cattle population of 488 and it is adequate. The villagers have also no objection to the grant of the land for the above purpose.

The Divisional Forest Officer, W.D.,Kanara who was consulted in the matter, intimates that

22 NOV 1956

P.T.O.

the area applied for can be made available for the purpose of an Idgah. The District Superintendent of Police, Kanara, has also no objection for grant of the area for the above purpose and the District Magistrate has also endorsed the same view.

In the above circumstances, there appears no objection for grant of an area of one acre out of F.S.No.108 of Shedgeri for the purpose of Idgah in favour of the President, Tanzeem Committee, Ankola, on disforestment subject to the following terms and conditions:

1. The grantee shall surrender the area out of S.No.56A/7 in favour of Government.

2. The grantee shall pay the occupancy price to be fixed by the Collector.

3. The existing building regulations and ribbon development rules shall be observed while erecting the Idgah.

4. The area shall be measured and formed into a separate S.No. at the expense of the grantee.

5. The grantee shall preserve the forest trees if any in the land till they are disposed of by the Forest Department.

6. The grantee shall preserve the public rights if any in the land.

7. The grantee shall not use the land for any purpose other than the specific purpose for which it is granted.

8. Any breach of the above conditions will be liable for cancellation of grant.

The papers of the case pages 1 to 42 are enclosed.

2. It is seen from the sketch at page 31 that the grant of the area requested for will create honey combing of the forests. The Divisional Forest Officer should please report why any other area along the boundary of the S.No. cannot be considered for the purpose.

3. On page 35 of this correspondence to querry whether the grant leads to honey combing, the R.F.O. has replied in the negative. His reply needs justification.

2. The grant of the area creates a pocket in the Forest area. But as the same is required for religious purposes in exchange of the area owned by the Muslim Community, which is to be given for the school, the area from F.S.108 was recommended.

3. The Range Forest Officer, reports that any area adjoining F.S.No. 108 along the boundary of S.No. 65 is considered suitable for the purpose; but S.No. 65 being malki, it seems not advisible to grant an area for religious purposes, just adjoining a malki. Hence the area as shown as on page 33 was recommended.

4. Another area is also suggested for grant from F.S.No. 97 of Shirkuli - which is considered equally suitable for the purpose. The area adjoins a public road. Sketches of both the areas are submitted herewith.
